COMMITMENT. COMPASSION. COURAGE.
LETTER FROM THE FIRE CHIEF  
CHIEF MARK MILLER

I’m pleased to present the Loveland Fire Rescue Authority (LFRA) 2020 Annual Report. This document highlights the progress made in achieving our strategic plan initiatives, program advancements, and budgetary performance. This report provides a snapshot of what a wild, unpredictable, and unprecedented year 2020 was!

The fact that we experienced and survived a worldwide pandemic, the largest wildfire in Colorado history, and responded to 9,066 incidents, is extraordinary in and of itself. In addition to those things we also opened and staffed a new Station 7, began designing and planning a new Station 10, maintained National Accreditation, and improved revenue with increased Impact Fees.

The resiliency, energy, and passion of our employees is astounding! LFRA’s employees are its most valuable asset, and we are blessed by the caliber, depth, and breadth of this organization. We have much work to do to increase our competitive pay and benefits, and we are committed to doing just that.

To say 2020 was "unprecedented" is an understatement. The Cameron Peak Fire was just over 208,000 acres and lasted over 100 days. Our crews were there day and night. COVID-19 created numerous challenges to our normal daily living and the handling of even the most basic EMS incident. We are grateful that we had remarkably few positive COVID-19 cases in LFRA. Our Office of Emergency Management worked collaboratively with the City of Loveland and Larimer County, including supporting and organizing COVID vaccinations for employees – strong work!

The LFRA Board was supportive of our efforts to retain and hire the best employees, seeking those that believe in the "LFRA Way", and have the attributes of hungry, humble, and smart. Our Community Safety Division, had one of the busiest years ever, despite COVID, with plan reviews, inspections, approval of the 2018 Fire Code, and continue to be instrumental in the approval of life/safety measures in our high hazard occupancies. In closing, it is a pleasure serving with the incredible men and women of LFRA. I’m so proud of the commitment, compassion, and courage they practice every day in serving this community.

Respectfully,

Fire Chief, Mark Miller
About Loveland Fire

Loveland Fire Rescue Authority is a combination department of career and volunteer firefighters providing fire and rescue services in an area totaling approximately 190 square miles. Our agency serves residents living within the City of Loveland and residents living within the Loveland Rural Fire Protection District.

Through COMMITMENT, COMPASSION, and COURAGE, the mission of the Loveland Fire Rescue Authority is to protect life and property.

OPERATIONAL HIGHLIGHTS

Despite the many challenges of 2020, we still advanced our services to the community!

**2020 ACCOMPLISHMENTS**

- Completed an insurance services office review, resulting in improvements to the ISO rating in several areas within the LFRA jurisdiction
- New Station 7 was opened
- Regional dispatching was effectively launched
- COVID-19 pandemic response
- Cameron Peak fire response
- Ballot measures 6A 1% sales tax increase & 6B de-galagherize passed
- Reassessed impact fees for LFRA
- Maintained national accreditation

**2021 LOOKING AHEAD**

- 2nd accreditation cycle preparations are underway with a new revised self-assessment manual, standards of cover, and community risk assessment
- Launch of Pulse Point App, which will assist with life-saving measures for cardiac events, contributing to our Heart Safe City initiative of Loveland
- Station 10, which is fully funded by impact fees, is designed and planned for construction in 2021-2022
